- Accept or reject reservations .

Benefits

- Get organized and get things done.
- Stop procrastination and reduce stress.
- Do the right things at the right time.
- Increase performance and productivity.
- Achieve goals with better results.

To Do List

- To-Do-List (and what is mean?) :
- We can say it a software or Application that produced today in many Hardware devices such as PC, Mobile, ...
- We used it to organize our time through the day or week until many year .

More & more

- The limitation was braked here , where admin can separate his/her time between clients to save & organize time, and this is the advantage we added for these technology “To-Do-List” to solve the main problem of it .

Thanks a lot for listening us
